EDUCATION

B.Tech CSE
Lovely Professional University

06/2020 - Present   *7.73 CGPA*

Intermediate
Sinha Modal High School

04/2019 - 04/2020   *8.6 CGPA*

Matriculation
DAV Public School

04/2016 - 04/2017   *78.0%*

TRAINING

React Js Developer
Online Platform

06/2023 - 07/2023   *Jalandhar, India*

Achievements

- Accomplished React training program through winter PEP Classes, resulting in the creation of a user friendly to-do-list and a captivating random cat application.
- Proficient in React component development with a strong understanding of component lifecycle and React hooks
- Showcased React.js proficiency with a project completion rate, highlighting my commitment to excellence in modern web development.

DSA self paced course
GeeksforGeeks

07/2022 - 08/2022   *Jalandhar, India*

GeeksforGeeks offers a vast repository of educational content covering various programming languages, data structures, algorithms, computer science concepts, and software development topics. This content is suitable for beginners, intermediate learners, and experienced programmers.

Achievements

- Master concepts of the matrix, Array, Strings, Linked List, Stack, Queue, and related data structures.
- Solve challenges in competitions similar to the coding round and used a real-world project to practice DSA concepts

SKILLS

HTML5   CSS3   JavaScript   ReactJS   NodeJS

MongoDB   Material UI   OOPS   SQL   VS Code

PERSONAL PROJECTS

MERN Recipe-Hub (11/2023)
- **Domain:** Mern Application
- **Technology used:** HTML, CSS, JavaScript, React JS, Node JS, Express JS, and MongoDB
- **Github:** https://mern-recipe-frontend-pearl.vercel.app/
- Implemented a Full Stack application where users can register and login securely using authentication. The backend, built with Express and Node.js, connects to MongoDB to store recipes data. React on the frontend ensures a dynamic and interactive interface, allowing users to view, add, save, and delete recipes.

Weather Application (08/2023)
- **Domain:** Web Application
- **Technology used:** HTML, CSS, JavaScript, React JS, Material UI
- **Github:** https://github.com/Simransinha456/Weather_app
- Created a simple Weather Application that displays the current weather based on geolocation or search. It pulls data from the OpenWeatherMap API to allow users to search for and view the forecast in cities worldwide. Also used Material UI which is a CSS framework of react.

CERTIFICATES

Frontend Development using React JS | Coursera (12/2023)
The certificate was offered by Coursera for the successful completion of Frontend Developer.

DSA self paced course | geeksforgeeks (07/2022 - 08/2022)
The certificate was offered by GeeksForGeeks for the successful completion of Data Structure and Algorithms.
